MODERN FOREIGN LANGUAGE ENROLLMENTS IN FOUR-YEAR COLLEGES AND UNIVERSITIES, FALL 1960.

BY- VAMOS, MARA AND OTHERS

MODERN LANGUAGE ASSN. OF AMERICA, NEW YORK, N.Y.

REPORT NUMBER NDEA-VI-1-6

PUB DATE NOV 61

CONTRACT OEC-SAE-8342

EDRS PRICE MF-\$0.09 HC-\$3.04 76P. REPRINT FROM REPORTS OF SURVEYS AND STUDIES IN THE TEACHING OF MODERN FOREIGN LANGUAGES, NOV. 1961

DESCRIPTORS- *MODERN LANGUAGES, *ENROLLMENT TRENDS, *COLLEGE STUDENTS, *TEACHER EDUCATION, *NATIONAL SURVEYS, STATISTICAL SURVEYS, COMPARATIVE ANALYSIS, NEW YORK CITY, NEW YORK

MODERN LANGUAGE ENROLLMENT DATA WERE PRESENTED DEALING WITH 4-YEAR INSTITUTIONS OF HIGHER EDUCATION FOR THE FALL OF 1960. A COMPARISON WAS MADE OF THE TOTAL ENROLLMENTS OF 1958 AND 1959, WHICH SHOWED AN INCREASE OF 27.8 PERCENT OVER THE PREVIOUS 2 YEARS. INCLUDED WERE DISCUSSIONS OF (1) NATIONAL DATA, (2) BREAKDOWN BY LANGUAGES, (3) STATISTICAL TABLES, (4) CRITICALLY NEEDED LANGUAGES, AND (5) A COMPREHENSIVE SURVEY TABLE. THE FINDINGS INDICATED THAT THE INCREASE IN LANGUAGE ENROLLMENTS SHOULD RESULT IN MORE TEACHERS FOR THE VARIOUS LANGUAGES. SMALL ENROLLMENTS IN THE CRITICAL LANGUAGES, HOWEVER, WERE FELT TO BE OF SERIOUS CONCERN TO THE NATION. REPORTS IN THIS SERIES ARE ED 003 940 THROUGH ED 003 960.

Modern Foreign Language Enrollments in Four-Year Colleges and Universities Fall 1960*

BY MARA VAMOS, JOHN HARMON, HANNELORE
FISCHER-LORENZ, AND FRANK WHITE

With the publication of this report the Modern Language Association has completed under contract with the United States Office of Education a series of eight studies on the current status of modern foreign languages within accredited institutions of higher learning in the United States. The seven earlier reports were as follows:

(1) "Foreign Language Entrance and Degree Requirements for the B.A. Degree in Accredited Colleges and Universities"; (2) "Certification Requirements for Modern Foreign Language Teachers in American Public Schools (1959-60)"; (3) "Modern Foreign Language Faculties in Colleges and Universities, 1959-60"; (4) "Modern Foreign Language Enrollments in Colleges and Universities, Fall 1958, Fall 1959"; (5) "Teacher-Education Curricula in the Modern Foreign Languages"; (6) "Language Learning in American Colleges and Universities: Data on Degrees, Majors, and Teaching Practices"; and (7) "Modern Foreign Language Teaching in Junior Colleges, Fall 1959, Fall 1960."

The chief contribution of this report is its presentation of modern foreign language enrollment data from four-year colleges and universities for the fall of 1960 and its comparison of these data with those from the fall enrollments of 1958 and 1959. It shows that the enrollment in modern foreign languages was approximately a half million in the fall of 1960, with appreciable increases since 1959 in four of the five principal languages taught in the colleges and universities. Also, the report reveals that over the two-year period 1958-60 there has been an increase of 27.8 per cent in total modern foreign language enrollments, while the per cent of increase in total institutional enrollments was 10.5 for the same period.

It is encouraging to note an increase of modern foreign language enrollments in graduate schools. This increase should result in more teachers for the various languages. However, small enrollments in "critical languages" still present a serious concern to our nation.

The Modern Language research staff gratefully acknowledges the help which the registrars and other college officials have given in furnishing the enrollment data for the 1,206 colleges and universities included in this report.

J. WESLEY CHILDERS
Director of Research

25 May 1961

* The research reported herein was performed pursuant to a contract with the United States Office of Education, Department of Health, Education, and Welfare.

HIGHLIGHTS

1. There were over a half million enrollments (558,848) in modern foreign languages in 1,206 four-year colleges and universities in the United States in Fall 1960, distributed among French (37.7 per cent), Spanish (28.4 per cent), German (24.4 per cent), Russian (5.2 per cent), Italian (1.9 per cent), and "critically needed languages" (2.4 per cent).

2. Modern foreign language enrollments continued to increase at a greater rate than institutional enrollments (12.4 per cent versus 6.5 per cent).

3. Graduate enrollments in modern foreign languages have gone up from 4.9 per cent of the total graduate school population in 1959 to 5.6 per cent in 1960. This is an encouraging trend upward, but if the national need for professionally trained potential teachers of modern foreign languages is to be met, additional efforts are necessary.

4. Russian enrollments in 1960 increased 11.2 per cent over 1959 enrollments, an indication that the 56.5 per cent increase of 1959 over 1958 is stabilizing.

5. Enrollments in critically needed languages, such as Arabic, Chinese, Polish, etc., were reported in 38 states and the District of Columbia, and they accounted for 2.4 per cent of the total modern foreign language enrollments in 1960. The increase in enrollment in critically needed languages from 1959 to 1960 (4.1 per cent) is more than twice that from 1958 to 1959, which shows, perhaps, the stimulus of the NDEA. However, the actual numbers of students enrolled in most of the 59 languages included in this category are well below 100.

I. National Data: Over a half million (558,848) enrollments in modern foreign languages were reported by 1,206 four-year colleges and universities in the United States in Fall 1960. The 1,039 accredited institutions of higher learning surveyed in the previous two years¹ reported an enrollment of

543,548 in modern foreign languages in Fall 1960. This figure represents an increase of 27.8 per cent over Fall 1958 enrollments. A comparison of enrollment figures in the last three years shows that in 1959 there were 58,316, or 13.7 per cent more enrollments in modern foreign languages than there had been in 1958, and that in 1960 there were 59,828, or 12.4 per cent more than in 1959. The numerical increase in 1960 was somewhat larger than it had been in 1959, although proportionately it was slightly smaller (12.4 per cent instead of 13.7 per cent).

The total institutional student enrollment in the 1,039 accredited institutions previously surveyed was 2,720,551 in Fall 1960; in 1959 it was 2,555,380. The overall college population thus increased by 165,171 students, or 6.5 per cent. A comparison of this per cent (6.5) with the 12.4 per cent rise in modern foreign language enrollments shows that the increase in language enrollments continues to take place at a higher rate than the college population increase.

The per cent of students out of the total school population taking modern foreign languages cannot be exactly determined because some students take courses in more than one language or are enrolled in more than one course in a given language; thus, they are counted more than once for language enrollment figures. With this reservation it is possible to compare institutional with modern foreign language enrollments. In 1960 the latter constituted 20.0 per cent of the total institutional enrollment; in 1959, the per cent of modern foreign language enrollment was 18.9 and in 1958 it had been 17.3. A steady increase over a period of three years can therefore be noted.

The enrollment figures include undergraduate, graduate, and "special and unclassified." The increase in undergraduate enrollments in modern foreign languages from 1959 to 1960 was 55,029, or 12.0 per cent (it had been 54,903, or 13.6 per cent from 1958 to 1959). Graduate enrollments increased 2,858 or 18.4 per cent (the increase from 1958 to 1959 had been 2,247 or 16.9 per cent). The increase in "special and unclassified" was 1,941, or 21.0 per cent (as against 1,166, or 15.0 per cent, in the previous year). It appears, then, that the rate of growth of undergraduate enrollments from 1959 to 1960 was smaller than that from 1958 to 1959, while the rate of growth of graduate enrollments (18.4 per cent) was considerably higher in 1960 than it had been in the preceding year (16.9 per cent). Figures for the previous year already indicated a more rapid rate of graduate than of undergraduate enrollment growth; and the results of the present survey confirm this trend.

¹ Numbers and per cents given for 1959 in Tables I, II and III are taken from Mara Vamos et al., "Modern Foreign Language Enrollments in Four-Year Accredited Colleges and Universities, Fall 1958 and Fall 1959."

A similar trend upward in modern foreign language graduate enrollments can be seen by a comparison of them with institutional enrollments. While the per cent of graduate institutional enrollments (out of total institutional enrollments) fluctuated from 12.1 per cent in 1958, up to 12.5 per cent in 1959, and down to 12.2 per cent in 1960, the per cent of graduate enrollments in modern foreign languages (out of total enrollments in languages) rose very slowly, but constantly, from 3.1 in 1958 and 3.2 in 1959, to 3.4 in 1960. Of the total graduate population in 1958, only 4.5 per cent were enrolled in modern foreign languages; in 1959 4.9 per cent were enrolled in graduate courses, and in 1960, 5.6 per cent. There is still a gap between the total college population doing graduate work (12.2 per cent) and graduate enrollments in modern foreign languages (5.6 per cent), but it is encouraging to note that in 1960, over 5.0 per cent of the total graduate enrollments were enrollments in modern foreign languages.

II. Breakdown by Languages: The modern foreign languages surveyed are French, German, Italian, Russian, Spanish, and a number of "critically needed" languages (including Arabic, Chinese, Japanese, Modern Greek, Modern Hebrew, Hindi, Polish, Portuguese, African languages) grouped under "Other."

The state-by-state picture shows that in 1960 French and German were taught in all 50 states and the District of Columbia. Russian was taught

in all states except Arkansas, and Spanish in all states except Alaska. Italian was taught in all except six states (Alaska, Arkansas, Idaho, North Dakota, South Dakota, and Wyoming). No enrollments in critically needed languages were reported by any of the following states: Alaska, Arkansas, Georgia, Idaho, Maine, Mississippi, Nevada, New Hampshire, Rhode Island, Vermont, Virginia, and Wyoming.

In 1960, as in the previous year, there was an increase in enrollments in each of the five languages surveyed as well as in the group of "critically needed" languages. National enrollments in 1958, 1959, and 1960, and the numerical increase in enrollments in each language from 1958 to 1959 and from 1959 to 1960 are summed up in Chart A and illustrated in Graph A. Per cents in columns 5 and 7 show the rate of increase of 1959 and of 1960 enrollments over the preceding year. Per cents in columns 8, 9, and 10 show the share each language had, in each year, of that year's total language enrollment; per cents in columns 11 and 12 show the proportionate growth of each language out of the total modern foreign language growth from 1958 to 1959 and from 1959 to 1960.

The most significant facts emerging from this national picture are the following. All categories showed a greater rate of growth in 1960 than in 1959 except German and Russian. The Russian enrollment boom noted last year (9,201 or 56.5 per cent over 1958) has levelled off to an increase

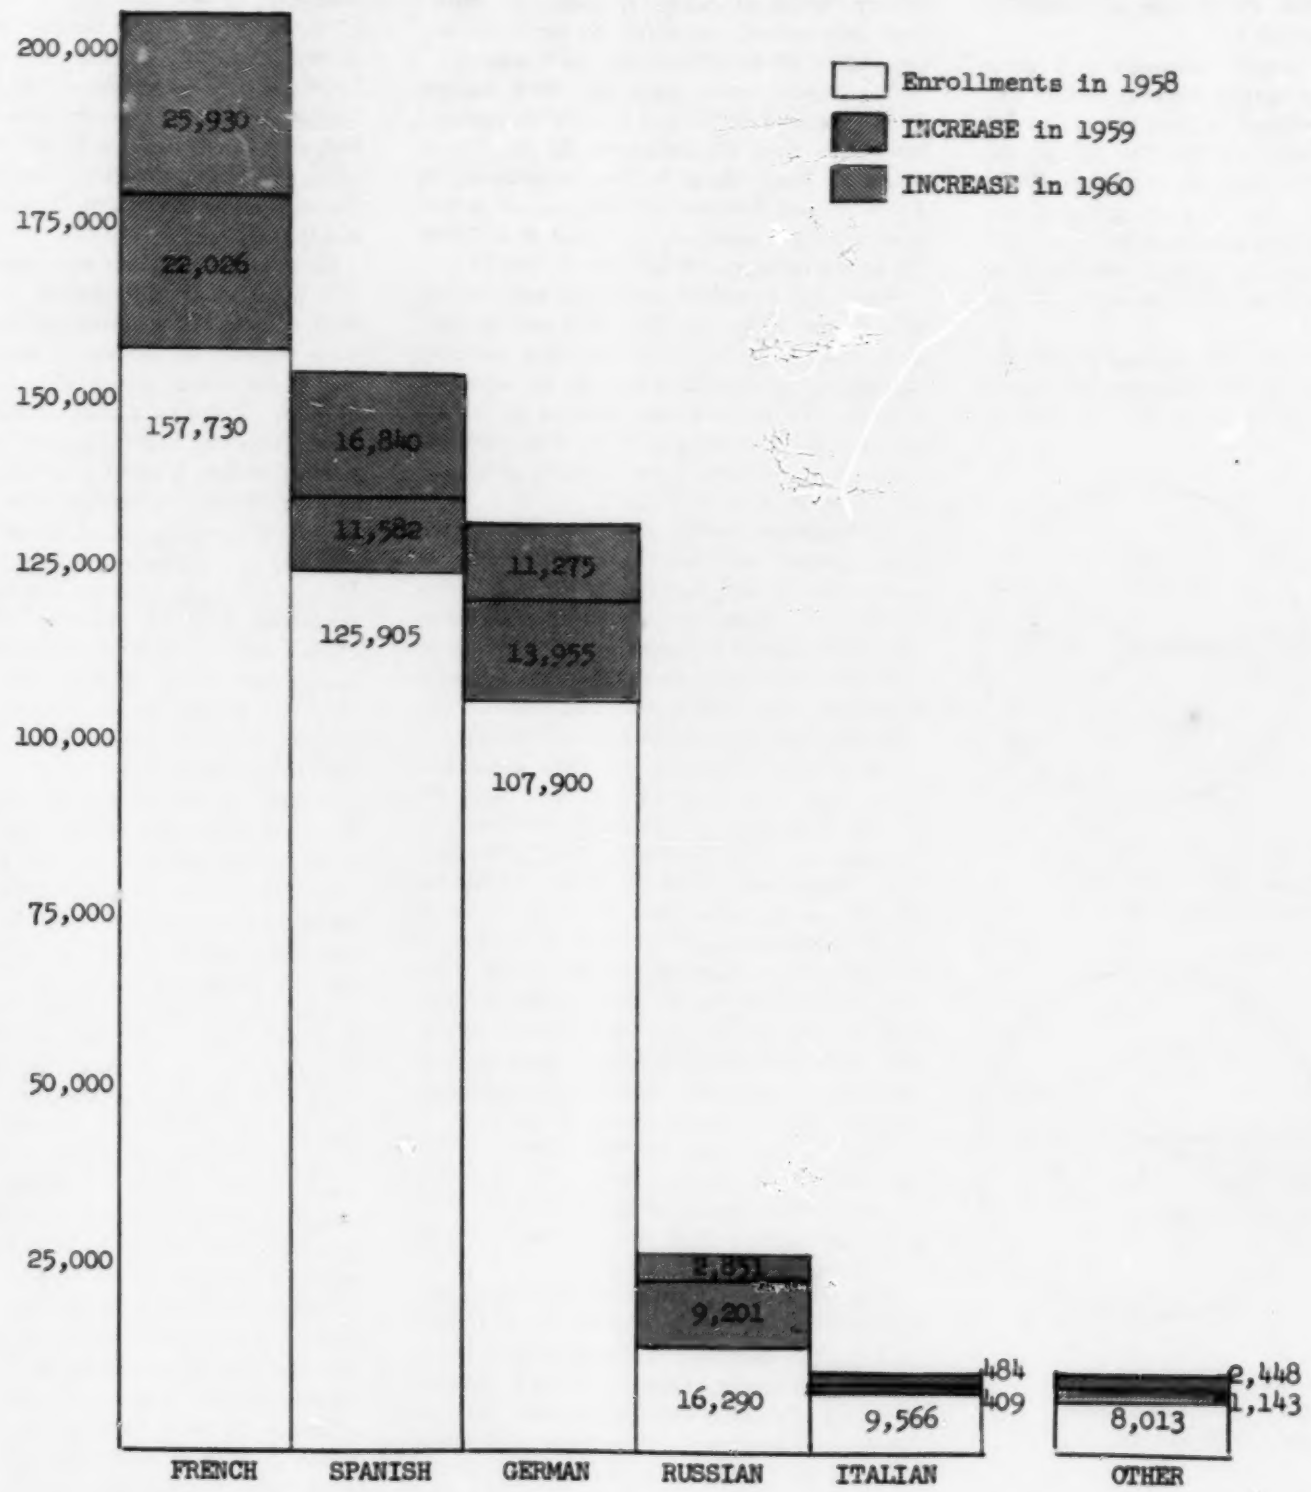

of 2,851 or 11.2 per cent. A particularly high increase, 26.7 per cent, can be noted in critically needed languages (as compared to a 14.3 per cent increase the previous year). A 12.2 per cent increase in Spanish enrollments (as compared to only 9.2 per cent increase from 1958 to 1959) marks a revival of interest in this language. At the same time, there was a slackening of interest in German, enrollments in which rose by only 9.3 per cent as against the rise of 12.9 per cent the previous year. Italian was still lagging behind.

The highest enrollments were in French, Spanish, and German, in that order, followed by Russian and Italian. Both the largest enrollment and the highest numerical increase were in French. This was true in 1959 as well, but an increase of interest in French can be deduced from the fact that whereas in 1959 French contributed 37.8 per cent of the total increase in modern foreign language enrollments, in 1960 it accounted for 43.3 per cent. Spanish and German again showed a reversal of strength. Spanish, which in 1959 held the third place and contributed 19.8 per cent of the growth in modern foreign language enrollments, jumped to second place with 28.2 per cent. Conversely, German, which in 1959 held the second place and contributed 24.0 per cent of the total modern foreign language enrollment increase, dropped to third, with 18.8 per cent. Russian still held the fourth place but it contributed only 4.8 per cent of the enrollment

CHART A

Language	Enrollment			Enrollment increase				Per cent of total MFL enrollment			Per cent of increase of total MFL increase	
	1958	1959	1960	1958 to 1959		1959 to 1960		1958	1959	1960	1959 over 58	1960 over 59

GRAPH A

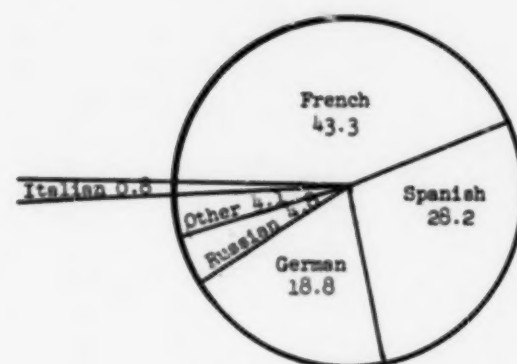

growth as against the 15.8 per cent it had accounted for in 1959. Fluctuations in Italian enrollments were insignificant.

The "critically needed" languages as a group constituted 2.2 per cent of the total modern foreign language enrollment in 1960 (as against 1.9 per cent in 1958 and in 1959). The high growth rate noted in 1959 (14.1 per cent) has almost doubled (26.7 per cent) and this group of languages also contributed more than twice as much to the total increase in language enrollment in 1960 (4.1 per cent) as it had in 1959 (2.0 per cent).

The contribution of each language toward the growth in modern foreign language enrollments from 1958 to 1959 and from 1959 to 1960 is illustrated below:

Per cent of increase in each language out of total MFL increase, 1958 to 1959

Per cent of increase in each language out of total MFL increase, 1959 to 1960

III. Coverage: Questionnaires were sent to the 1,520 institutions for which names and addresses were supplied by the Office of Education. After three mailings, 1,474, or 97 per cent, had replied,

of which 268 reported that they did not teach modern foreign languages. No language enrollment information is available for the 46 institutions which did not reply to the questionnaire.

The present report gives Fall 1960 modern foreign language enrollments in 1,206 colleges and universities from 50 states and the District of Columbia. Each college is listed individually in Table VII and the state total data for all institutions surveyed (specified as Totals B in Table VII) are given in statistical Tables IV and VI.

Since 1,039 accredited institutions were covered in a similar report for Fall 1958 and for Fall 1959, state totals for these previously surveyed institutions (specified as Totals A) are separated in Table VII from the state totals which include all institutions surveyed in 1960. The statistical Tables I, II, III, and V use Totals A as a basis for comparison with 1959 data.²

IV. Statistical Tables: Table I summarizes the total student enrollments and enrollments in modern foreign languages in the previously surveyed 1,039 colleges and universities of all states and the District of Columbia in Fall 1959 and in Fall 1960. Additionally the numbers and per cents of increase from 1958 to 1959 and from 1959 to 1960 are given for each state in each category.

The per cent of increase in modern foreign language enrollments was larger in 1960 than the per cent of increase in institutional enrollments in all states but nine (Delaware, Hawaii, Montana, New Hampshire, North Carolina, Oklahoma, Rhode Island, Texas, and Vermont). Twenty states showed a larger per cent of increase in modern foreign language enrollments in 1960 than in 1959 (Alabama, Alaska, Arizona, Colorado, Connecticut, Georgia, Idaho, Illinois, Louisiana, Maine, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, Pennsylvania, Virginia, Washington, and West Virginia).

Table II gives a state-by-state summary of the numbers and per cents of increase (or decrease) in enrollments in each language from 1958 to 1959 and from 1959 to 1960 over enrollments in the same language in the previous year.

Data on Rate of Growth in Each Language, Fall, 1960. French enrollment increased by more than 20 per cent over 1959 enrollment in 10 states (Washington, Idaho, Nebraska, Kansas, Wyoming, Colorado, Georgia, Arizona, Pennsylvania, and Arkansas).³ Two states (Wisconsin and Hawaii)⁴ reported a decrease in rate of

² See "Modern Foreign Language Enrollments . . . Fall 1958 and Fall 1959."

³ States are listed in order of greatest to least increase in rate of growth.

⁴ States are listed in order of least to greatest decrease in rate of growth.

growth, and one state (Oklahoma) reported no change.

The rate of growth in German was an increase of more than 20 per cent in 6 states (Idaho, Louisiana, Colorado, Oregon, New Jersey, and Alaska). A decrease in the rate of growth of German was reported for 11 states (Texas, Vermont, Wyoming, Maine, Nevada, Delaware, North Carolina, Oklahoma, Montana, Arkansas, and Hawaii).

Enrollments in Italian were reported for 1960 in 3 states which had reported no enrollment in 1959 (Hawaii, Nevada, and New Mexico), and 14 states reported an increase of more than 20 per cent in the rate of growth of Italian enrollments (Arizona, Georgia, Kansas, Nebraska, Mississippi, Delaware, South Carolina, Indiana, Utah, North Carolina, Wisconsin, Illinois, New Jersey, and Washington). A decrease in the rate of growth of Italian occurred in 14 states (New York, Connecticut, Kentucky, Colorado, California, Maryland, Montana, West Virginia, Louisiana, Minnesota, Vermont, Alabama, Tennessee, and Maine) and the District of Columbia, and no change occurred in Missouri and New Hampshire. No enrollment was reported for 6 states (Alaska, Arkansas, Idaho, North Dakota, South Dakota, and Wyoming).

Russian enrollment was reported in 1960 in Wyoming, which had reported no enrollment in 1959. An increase of at least 20 per cent in the rate of growth of Russian enrollments was reported by 25 states (Mississippi, Montana, Louisiana, Tennessee, West Virginia, Arizona, Missouri, Kansas, Alaska, New Mexico, Oklahoma, Nebraska, North Dakota, Oregon, South Carolina, Kentucky, Wisconsin, Nevada, Hawaii, Ohio, Georgia, New Hampshire, Maine, Iowa, and Texas). A decrease in the rate of growth of Russian was reported by 9 states (New Jersey, Indiana, Alabama, Michigan, Connecticut, Vermont, South Dakota, Delaware, and Rhode Island) and the District of Columbia. Arkansas, which had reported enrollment in Russian in 1959, reported no enrollment for 1960.

The great increase in the rate of growth of Russian enrollment in 1959 was due to the fact that the Russian enrollment in 28 states was increased by more than 50 per cent over 1958 enrollment. Of these 28 states, 11 showed an increase in 1959 of more than 100 per cent over 1958 Russian enrollment. Whereas the 56.5 national per cent of increase in Russian enrollments showed a sudden and exciting upsurge in interest in that language, the increase of 11.2 in 1960 over 1959 indicates that 1959 gains were not sporadic

but that they have become stabilized. The rate of growth of Russian in 1960 is greater than that of Italian and of Russian's most likely competitor, German, and only .1 per cent lower than the rate of growth of Spanish.

An increase of at least 20 per cent in the rate of growth of Spanish enrollment was reported for 7 states (Idaho, New Jersey, North Dakota, Washington, Minnesota, Missouri, and Wisconsin), while decrease in the rate of growth of Spanish was reported by 5 states (Wyoming, Montana, Hawaii, Rhode Island, and New Hampshire), with Alaska reporting no enrollment either year.

Enrollments in "Other" or "critically needed" languages were reported for the first time by 5 states (Colorado, Delaware, Montana, South Carolina, and West Virginia). In 18 states an increase of at least 20.0 per cent in the rate of growth of "Other" languages was reported (Connecticut, Louisiana, Indiana, South Dakota, Wisconsin, Kentucky, Texas, New Jersey, Arizona, Oregon, Missouri, Kansas, Minnesota, Ohio, Maryland, New York, Pennsylvania, and Nebraska). A decrease in the rate of growth of "Other" languages was reported by 6 states (California, Iowa, Tennessee, Oklahoma, Florida, and New Mexico) and the District of Columbia, while 4 states which had enrollments in "Other" languages in 1959 reported no enrollments in 1960 (Georgia, Maine, Vermont, and Virginia). No change occurred in the rate of growth of "Other" enrollments in Alabama, and 8 states reported no enrollments in "Other" languages either year (Alaska, Arkansas, Idaho, Mississippi, Nevada, New Hampshire, Rhode Island, and Wyoming).

Table III presents a state-by-state summary to show what per cent of the total increase (or decrease) in modern foreign language enrollments was contributed by increased (or decreased) enrollments in each language, 1958 to 1959 and 1959 to 1960. A summation of the national per cents from Table II is given in Chart A (columns 11 & 12), Section I of this report.

Table IV gives a state-by-state summary of the per cent of enrollments in each language out of the total modern foreign language enrollments for all institutions in 1960. All figures of enrollment on this table are the same as Totals B throughout Table VII.

A comparison listing of per cents of enrollment in each language based on national Total A (for 1,039 institutions) and of per cents based on national Total B (for 1,206 institutions) is given below:

In three categories, the per cents based on national Total A vary slightly from those based on

CHART B

Enrollments in								
		MFL (Total)	French	German	Italian	Russian	Spanish	Other
Total	1959	483,720	179,756	121,855	9,975	25,491	137,487	9,156
	1960	543,548	205,686	133,130	10,459	28,342	154,327	11,604
	Increase	59,828	25,930	11,275	484	2,851	16,840	2,448
Undergraduate	1959	459,203	172,128	115,987	9,225	22,494	132,509	6,860
	1960	514,232	196,863	126,133	9,477	24,850	148,279	8,630
	Increase	55,029	24,735	10,146	252	2,356	15,770	1,770
Graduate	1959	15,570	5,194	4,096	388	1,477	2,825	1,590
	1960	18,428	5,797	5,010	433	1,978	3,178	2,032
	Increase	2,858	603	914	45	501	353	442
Special & Unclassified	1959	8,947	2,434	1,772	362	1,520	2,153	706
	1960	10,888	3,026	1,987	549	1,514	2,870	942
	Increase	1,941	592	215	187	-6	717	236

national Total B: by .1 per cent less for both French and German; and by .2 per cent more for "Other" languages.

Table V presents a state-by-state summary of the data given for each of the 1,039 institutions recorded in Table VII (Totals A) and the breakdown of institutional, total modern foreign language, and individual language enrollments into undergraduate, graduate, and "special and unclassified" enrollments. The national totals for 1959 and 1960, and the increase (or decrease) in enrollments from 1959 to 1960, are given in Chart B above. These figures show, unexpectedly, that

German had the highest increase in graduate enrollments (914); French was second (with an increase of 603 graduate enrollments), and Russian, with an increase of 501 enrollments, superseded Spanish (which had an increase of 353). The increase by 442 graduate enrollments in "critically needed" languages indicates, perhaps, the stimulating effect the NDEA has had on the study of these languages.

Table VI presents data similar to those in Table V, and it is based on the totals for all institutions surveyed in 1960 (Totals B in Table VII). Although the data reported by the 167 additional institutions result in numerical changes, they do not differ sufficiently from the comparative totals (Totals A) to affect the picture of the growth of modern foreign languages as it emerges from Tables I, II, III, and V.

V. Critically Needed Languages: Enrollments in critically needed languages in Fall 1960 reported by colleges previously surveyed totaled 11,604, as compared with 8,013 in Fall 1958, an increase of almost 45 per cent. If enrollments reported by institutions surveyed for the first time in 1960 are added, the enrollments in Fall 1960 were even higher, 12,909.⁵ These figures exclude

⁵In this figure are included a number of enrollments in linguistics, in area linguistics, and in languages such as Greek, which may have been erroneously reported as "modern." See Addendum A.

FALL 1960

Language:	Per cents of each language out of Total Modern Foreign Language Enrollments	
	(Based on Total A, 1,039 Institutions)	(Based on Total B, 1,206 Institutions)
French	37.8	37.7
German	24.5	24.4
Italian	1.9	1.9
Russian	5.2	5.2
Spanish	28.4	28.4
Other	2.2	2.4

ENROLLMENTS IN CRITICALLY NEEDED LANGUAGES, 1958-60

Year	Total Enrollments	One-year Increase	Per Cent	Two-year Increase	Per Cent
1958 (Fall)	8,013				
1959 (Fall)	9,156	(1958-59) 1,143	14.3		
1960 (Fall)	11,604	(1959-60) 2,448	26.7	(1958-60) 3,591	44.9

Russian, which, although critically needed, is so often offered that it is treated along with French, German, Italian, and Spanish as one of the most frequently taught languages in the United States. But of the hundred or so neglected languages that are now critically needed, enrollments have been growing in about seventy-five of them which have actually been taught during one or more of the last three years in American colleges and universities.

About a third of the totals each year have been enrollments in modern Hebrew. These enrollments are concentrated in a few schools in which Hebrew is either required or a predominant part of the curriculum. This means that the figures to be distributed among the many other critically needed languages are actually fewer than the total enrollments in critically needed languages may suggest. Nearly half of the languages are taught at only one or two institutions and to individuals or to extremely small classes of students.

Enrollments are highest in Chinese and Japanese. Chinese enrollments have grown from 615 in Fall 1958 and 891 in Fall 1959 to 1,601 in Fall 1960 (and, with additional schools not covered in the previous reports, to 1,771). Japanese enrollments, in the same progression, have increased from 844 and 1,202 to 1,506 (and 1,547). Portuguese, in Fall 1960, has reached over a thousand enrollments. Arabic, Polish, Norwegian, and

Swedish show 1960 enrollments of more than 500, but most of the other languages have enrollment figures well below 100.

Some languages, for which enrollments were reported in 1958 or in 1959, had no enrollments reported for them in Fall 1960. Among these were Gio, Hindustani, Manyika, and Turkic. Other languages, which may have been offered, but not taught, in the two preceding years, were reported as having enrollments in Fall 1960. These were Afrikaans, Amharic, Bantu, Bengali, Berber languages, Estonian, Georgian, Khalkha, Lettish, Tamil, Telugu, Twi, Uzbek, and Vietnamese.

Total enrollment figures for each of the critically needed languages reported in Fall 1960 are listed in this report in Addendum A.

VI. Survey Table: Table VII covers all institutions of higher learning surveyed and records, by state and by institution, the Fall 1960 institutional enrollments, the enrollments in modern foreign languages, and the enrollments reported for each of the five most commonly taught languages and for the "critically needed" languages grouped under "Other MFL." In each state where the distinction is applicable, the institutions surveyed in the report for 1958 and 1959 are listed first and the data are summed up in Totals A; institutions covered for the first time are listed next; the data for them are added to Totals A and state

totals for all the institutions surveyed are listed under Totals B.

At the end of Table VII are listed all the institutions which reported enrollments in modern foreign languages in extension courses.

The following marks and abbreviations appear in Table VII:

One asterisk (*) to denote that figures were taken from *Opening (Fall) Enrollment in Higher Education, 1960: Institutional Data*, published by the U. S. Office of Education.

Two asterisks (**) to denote that the figure is an estimate.

to denote that additional figures of extension enrollment for an institution so marked appear in the listing at the end of Table VII.

* LEGEND FOR TABLE II:

A minus sign before a number or a per cent indicates a decrease in enrollments.
A minus sign alone (-) means that enrollments were reported only in the first of the two years being compared.
A plus sign (+) means that enrollments were reported only in the second of the two years being compared.
A zero alone (0) indicates that no change was reported in enrollment for the two years being compared.
No entry in a column indicates that no enrollments were reported for either of the two years being compared.
